Role: Used HTML and CSS for styling, Node, Express for backend, and deployed it to Heroku.

Tools Utilized: Node.js, Express, HTML5, JQuery, Bootstrap, Ajax

PROFESSIONAL EXPERIENCE

Mandoo Entertainment; Austin, TX **-Project Manager** 10/2017 - 04/2020

Managed and organized various projects. Oversaw marketing, budgeting, coordinating, problem tracking, problem solving, team leading, and goal achieving.

- Doubled up annual project numbers, employee numbers, and company profits

When I was hired as a project manager, our department was already on the verge of disappearing due to the company's indifference. So I worked day and night, visited customers, and did all my best. Through this process, the department that was collapsing took on a lot of tasks, which led to doubling all performances.

Presentation Services Audio Visual (PSAV); Dallas, TX **Lead Technician** 06/2016 - 10/2017

Directed a group of technicians from 5 to 20 to achieve clients' favor.

- Nominated the most valuable technician in 2017.

Given the project period, I did my best to complete the project in a shorter time than that period so that I could concentrate on troubleshooting and problem solving on the remaining time period. So most of my projects were completed successfully and had no or less problems than others. This process made me achieve the Best Technician Award.
